i have been pouring over what has worked in content marketing over the last year, and, honestly, at this point i'm chalking it up to fairy dust and unicorn tears.

i have made things while on it that i know i wouldn't have been able to do in the same amount of time without it.

putting your child's hair up in a ponytail or bun will be helpful or work with your daughter to choose a new, shorter hair style.

the vapor pressure $p$ of water in the pure solvent under the influence of the atmospheric pressure $p_0$ is greater than the vapor pressure $p$ of water in the solution by an amount $p - p_0$. 

putting your child's hair up in a ponytail or bun will be helpful or work with your daughter to choose a new, shorter hair style.
